EXPERIENCE

AI Product Manager — ESC Partners

Boston · 2024 — present

Building Maya AI, a multilingual civic assistant serving 200,000+ residents in 26 languages including Spanish, Haitian Creole, Vietnamese, Mandarin, Arabic, and Cherokee. Led eval framework, RAG architecture, and governance design.

Founding PM — Trace AI

San Francisco · 2022 — 2024 · **Acquired Q4 2024**

Built an AI workflow engine for government compliance, from whiteboard to 500,000+ government workflows. Wrote the first eval suite, hired the first three engineers, killed two products before shipping.

PM #2 — Inflection Labs

New York · 2020 — 2022 · **Acquired 2022**

SMB e-commerce personalization. Took ARR from \$200K to \$4M in 18 months. ML-driven product recommendations and retention.

Strategy — McKinsey & Company

Bangalore · 2018 — 2020

Telecom and Financial Services clients. Engagements across 4 industries. Left to be upstream of the answer.

EDUCATION

Cambridge — Economics

2014 — 2018

SELECTED WORK

- **Maya AI** · 200,000+ residents · 26 languages
- **Trace AI** · 500,000+ government workflows · acquired
- **Inflection Labs** · 20× ARR growth · acquired

PHILOSOPHY

“Features that can't survive a 30-second user interview are guesses wearing JIRA tickets.”

“The hard part of AI products isn't the model — it's the five specific moments it should hand control back to the user.”

“Multilingual isn't a feature, it's a commitment — to people whose language wasn't in the training data.”
